STUDENT COMMENTS (3)

- I think I on accident put strongly disagree for the first one I meant strongly agree. She was so helpful whenever I was strongly with any part of the assignment
- I really enjoyed lab with Ms. Barsha. She was super helpful and answered all of my questions!
- Ms Barsha was helpful, kind, and attentive. No notes.

The first comment explains that one rating on item 1 was marked by mistake. The reported mean for item 1 (4.33) includes that rating.

STUDENT COMMENTS (4)

- She was absolutely amazing this semester!!
- I loved Ms. Barsha so much. She was so patient and helpful and her demonstrations left me with little to no questions. The best!
- Mrs. Barsha was a fantastic TA and I loved taking the lab with her, she was very helpful if we had any questions, truly wanted us to succeed, and helped us understand the material.
- Mrs Barsha was an incredible lab teacher. She was very clear in her instructions. Her patience and willingness to help was incredible. She never seemed frustrated when we asked multiple questions and she gladly provided assistance with a smile. Her calm demeanor was so comforting when I would mess up and have to start over. She graded the garment with you and pointed out what she would take off points for so that we could understand what we did wrong and could do it differently the next time. She truly made me enjoy sewing and I look forward to taking the many things that she taught us and applying them to the rest of my sewing projects.

The Monday section had 1 comment and the Tuesday section had 3.

STUDENT COMMENTS (8)

- Great course helpful information
- sometimes told me what to do and then when i did exactly what she said she then told me it was wrong
- I genuinely love being in Barsha's lab! She's always ready to help me in any way that I need it. After each lab when she grades my work, she always encourages me and affirms me. This made me feel more confident in my abilities and exited for the next week's lab! She is also very clear about instructions and is always more than willing to repeat them as needed. It's just very clear her love for the course but more importantly for her students. I'm in merchandising so this is my only production lab but i'm so happy that I had her to be my instructor for it!!!
- Barsha is a wonderful TA and very good at the position! She did a great job helping teach students who had less experience with sewing.
- Barsha was clearly very knowledgeable on what we were doing. She was a passionate instructor and very nice but for me who had never done this before it was challenging to take direction from her without step by step.
- SHE IS AWESOME WE LOVE HER!
- This GTA was nice and did demonstrate lessons in a helpful way.

- she did an amazing job! my only suggestion for the class would be having more (correct) patterns available for the different projects. this was mainly just an issue for the shirt patterns, but some pattern pieces were incorrectly marked (for example, some sleeve patterns didn't have different notches for front and back) and some pieces were missing (the medium shirt pattern didn't have any buttonhole facing patterns).

7. Overall Performance	Excellent	Excellent	Excellent

SPRING 2026 | CADS 5750 | GTA ASSISTING FACULTY WITH COURSE(S) | signed 04/30/2026

Barsha consistently demonstrates a high level of proactivity, anticipating needs and staying one step ahead to ensure that all aspects of the course whether it was assignments, grading, and overall coordination, so everything runs smoothly and on schedule. She maintains effective communication with both students and me, which has been essential to the course's success. Her contributions played a critical role in creating a positive and well-organized experience for the students; the class would not have run as effectively without her support.

FALL 2025 | CADS 3750 | GTA WITH COURSE RESPONSIBILITY | signed 12/12/2025

Barsha took ownership of course, handled students, and grading exceedingly well. Professional development I saw as "refreshing" her knowledge on tailoring and contouring patternmaking and construction which she did by coming to my section of CADS 3750 to audit.

SPRING 2023 | CADS 2800 LAB | GTA ASSISTING FACULTY WITH COURSE(S) | signed 05/08/2023

Barsha's UTA student assessment of CADS 2800 lab has an overall mean of 4.71 (out of 5) for her first term teaching a studio course which was excellent. This report is attached. She showed imitative in taking on this position and was an asset to our department.

Spring 2023 comment is quoted as written on the form.
